

DIAMOND

Steel Sinks • Wash Basins • Steel Tiles

IN PARTNERSHIP WITH

BLANCO
GERMANY

- Stainless steel sinks
- State-of-the-art production
- Aesthetic satin, brushed & glossy finish
- Maximum functionality
- Large bowl sizes

It is aptly called Diamond. For, like nature's masterpiece, a Diamond Sink too is all about finesse and perfection. An elegance so subtle, the class is unmistakable.

Diamond Sinks are not for anybody and everybody. It takes a certain temperament to appreciate its enchanting subtleties. And once you have chosen Diamond, it is unlikely you will opt for anything else. Ever! Because a Diamond Sink - again like its glittering natural counterpart - has been crafted to retain its class and beauty for years and years.

Technically, a Diamond Sink is the paradigm of perfection. Crafted from the highest grade 18/8 (Type AISI 304) stainless steel, it comes to your kitchen virtually abuse-ready. Which is to say, it is ready to perform under the toughest conditions. And superbly functional.

It is a world class product, adapted to satisfy Indian inclinations. Which is why you will always find a size or model to suit your specific need. Diamond Sinks come in a range of sizes and combinations of single and double bowls and drainers... In short, there is always a Diamond Sink for every kitchen.

And again, like Mother Nature's jewel, it is guaranteed to steal the thunder. The highlight of any kitchen. The showpiece.

Diamonds they say, are a girl's best friend.
Diamond Sinks, ditto!

Maintenance Tips

Warranty

SS Sinks: Life Time Warranty

All DIAMOND Stainless Steel sinks are guaranteed for lifetime against faulty workmanship and material.

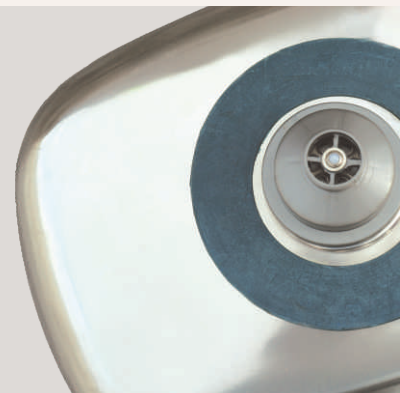

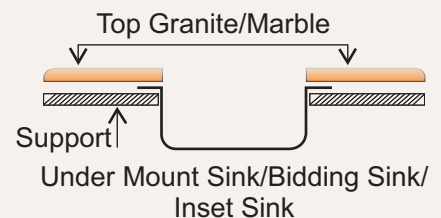

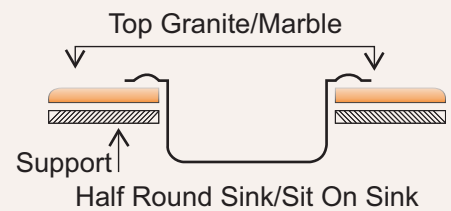

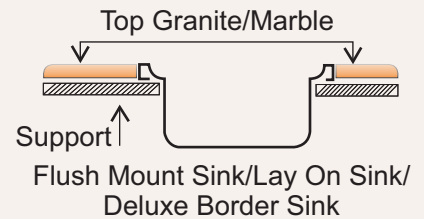

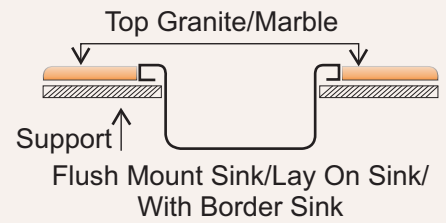

Proper maintenance tips

- Frequent and regular cleaning. Clean, dry and expose your sink to room temperature when not in use.
- Keep your sink free of any standing water and do not allow any mineral deposits.
- High iron content water can cause brown surface stain.

Things that can harm your sink

- Remove dirt and lime scale deposits on a regular basis.
- Steel wool or abrasive pads should not be used to clean your sink.
- Do not leave any mild steel, rusty articles or cast iron cookware on the sink for extended periods of time.
- Do not leave rubber dish mats, wet sponges or cleaning pads in the sink overnight.
- Household products, bleach or foodstuff, containing chlorine and silver dip cleaners and cleaning products containing sulphuric / hydrochloric acid are potentially harmful to your sink.
- Accidental contacts with photographic chemicals or soldering fluxes should be rinsed immediately.
- Pickles, mayonnaise, mustard and salt laden foodstuff should not be left on the sink for a long period.
- Do not use your sink as a cutting surface.
- Do not put mild steel, metallic, hard material and tools on / in the sink during installation / interior decoration.
- Gas / vapour from open bottles of bleach or chemical cleaners in the cabinet could damage the underside of the sink.
- Do not let cement (ordinary or white) to deposit on the sink after installation.
- Remove lacquer sheet only after installation.

- Manufactured in technical collaboration with the number one sinks manufacturer in the world - BLANCO GMBH CO. of Germany
- Tried and tested stainless steel material of 18% chrome and 8% nickel (304 grade) of Salem or Jindal Steel
- Ideal for modern households and professional chefs
- Large and extra deep bowls for bulky utensils
- Can be easily fitted with the worktops made of granite, wood, tiles, marble, metal
- Non-rusting, easy to maintain, hygienic, satin/matte finish
- Sloping drainboard for easy drainage of water
- Special coupling to stop hot or soapy water
- Dimensions correction upto +/- 10mm
- Tap hole can be given on request

Each Diamond sink is PVC coated so as not to get damaged during transportation and installation.

Sinks are also available with special anti-fungal coating which gives the sink a long life

Each Diamond sink is sound deadened with modern techniques.

How to choose a kitchen sink

Tips for making the right choice

The sink is the most important workplace in the kitchen. 60% of time spent in the kitchen is spent at the sink. After all, food preparation, washing and cutting are important tasks which should be as efficient as possible and which no kitchen appliance can do for you.

Sensible space utilisation, ergonomic design and ease of cleaning – DIAMOND solutions incorporate these benefits into all products – with outstanding design on top. Learn what is important when choosing the right sink centre.

Optimum space utilisation for more comfort.

DIAMOND offers solutions for any size of sink cabinet. A cabinet width of 60 cm is ideal for sinks with a single bowl or single bowl with a drain board. Larger cabinets of up to 90 cm allow for larger one & half bowl or two bowl sinks to fit.

Ergonomics and functionality

The main and second bowls and accessories are designed to match each other perfectly.

Cleaning made easy

The surfaces of sinks are wonderfully easy to clean. Special materials help to repel dirt and water.
