## SILQUARTZ SINKS

### Advanced Material for Advanced Durability

A unique combination of Acrylic and Quartz gives our Sinks their amazing durability. The Quartz-Acrylic composite is developed using an innovative process of polymerization taking place at a high pressure, to make a casting mould that sets the design and composition of hard and durable Sinks with sheen and shine! Using this High Tech process we have succeeded in producing varied composites of Acrylic and Quartz. An innovative material was developed by us was launched in 2012, that combined a smooth surface with a clean and hard finish!

### Advantage Quartz

We use approximately 75% natural quartz minerals particles in different grain sizes (including quartz powder) blended with advance-grade acrylics as a binder in a chemical polymerization process to produce a unique composite material. This translates to an end product that is house hold chemical resistant, hygienic, impact resistant, point load resistant, heat resistant et al.

### Quartz Quality you can count on

- Beautiful moulded product (Extremely hard and durable)
- "HOMEGENEOUS" material matrix
- 100% Waterproof, porousless structure
- Safe in contact with food
- Heat Resistant up to 180°C
- Household acid, alkali and chemicals resistant
- Easy to clean
- Extremely Scratch Resistant
- Non Gel coating
- No sandwich layer
- No polish, varnish or paint required
- A range of colours to match your kitchen/interior
- 100% Fade Resistant

100% Maintenance Free. 100% Value for Money.

### Dirt Repellent Effect

- Dirt that could be a breeding ground for bacteria finds it impossible to stick to the material's surface. The dirt runs off.
- It can easily be removed with a damp cloth and a little washing up liquid.

### Scratch Proof

- Only three natural stone "Diamond, Sapphire and Topaz" are harder than Quartz !
- This makes product highly resistant to scratches.

### Impact Resistant

Product has a high impact resistance, much higher than other branded Material used for the same purpose.

### A Natural Beauty. An Elegant Statement of Quality.

- Product has the elegance and beauty only comparable with the most beautiful natural stones such as quartz and diamond. Products containing natural quartz has excellent density and brilliance, comparable to that of a diamond
- Check out the perfect combination of colour and style to complement to suit your taste. We will keep updating you with our latest products and ranges.

### Specification

21"x18"

22"x20"

24"x18"

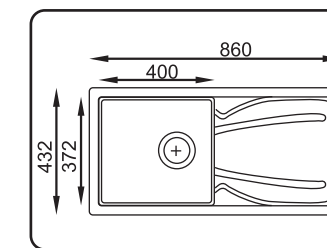

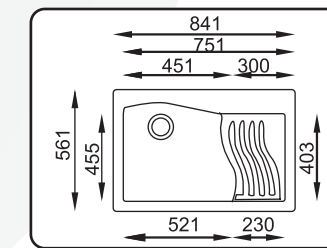

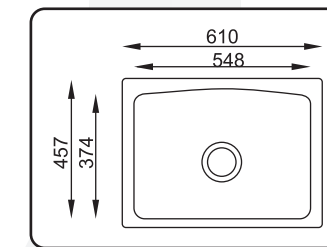

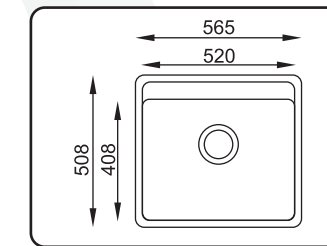

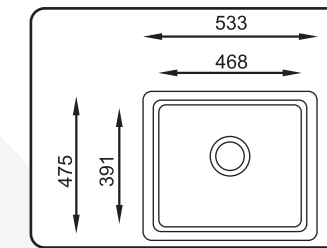

33"x22"

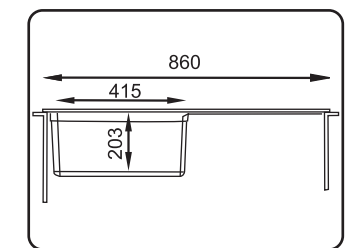

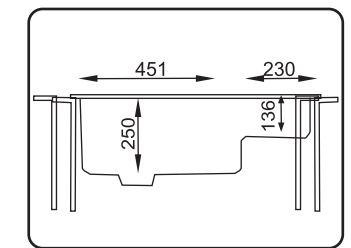

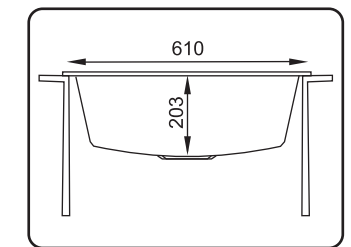

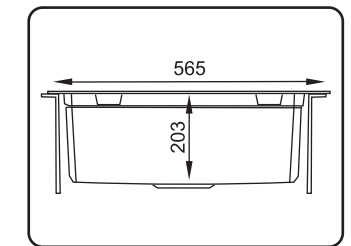

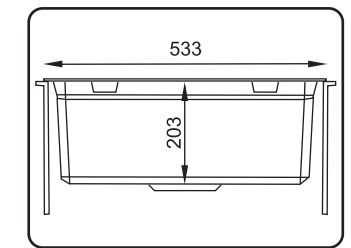

34"x17"
